

1 SAFETY FIRST!

Safety is a priority! To make sure Axed Lincoln is a safe place for everyone to sink some axes, you gotta play by the rules.

2 PLAY BY THE RULES

An individual turn consists of throwing 3 axes at the target. Only 1 person in the throwing zone at any time.

All throws must be behind the safety line - all throws must be in the direction of the target!

If any part of the blade is in the target zone - we class that as a HIT.

If an axe falls out of the board - it's a no score [sorry kids]. This includes if another axe knocks it out of the board.

You gotta call the 'Killshot' before you throw it! So if you miss it - that's a no score.

Players can only retrieve axes once all 3 are thrown. Collect from the board first, starting top to bottom, then any on the floor.

Always be aware of your surroundings - don't let the haters distract you! Concentrate on your throw and never put yourself in front of an axe!

Players cannot be under the influence of alcohol or drugs while throwing. Save the victory beers for later.
